## We Try to be Green

You may notice that sometimes your order arrives in an obviously used box. If we have a used carton on hand that is in good condition and just right for your items, we use it. I recall being told, “re-use is the best form of recycling.” So, this is one of the ways we try reducing waste and doing our part to be environmentally responsible. Locally, we have such a reputation that many of our friends and neighbors also drop off their used boxes as well as packaging material such as bubble wrap and peanuts. We especially appreciate biodegradable peanuts to help cushion glassware!

What we can't re-use, we religiously take to the recycling center—paper, cardboard, plastic materials and anything else they will allow us to drop off. We are also conscious of our use of lighting, heating and air conditioning, and try our best to keep it to a minimum, especially when we are closed for the night. In winter, we use sand outside and never de-icing salt. Whenever we can, we do what we can to be good stewards of Earth—our home. That is one of the reasons that for the past 35 years we have been in business supplying wildfire prevention materials. We appreciate what you do, too, and always do our best to support your efforts with our fast, friendly service.

Best wishes for a safe and happy summer and autumn season.

*Dawn C Fyjo*

### Waterproof Gear Bag

Just like the large dry bags used on white water river trips except this one is smaller—and brings Smokey along. A clip allows attachment to a belt, backpack, kayak or the thwart of a canoe. Ten liters of storage (8" in diameter by 15" high when filled) and complete closure instructions are included.
