SMOKEY
COOPERATIVE FOREST FIRE PREVENTION PROGRAM

Dawn enjoys being host for a week at the Lochsa Historical Ranger Station in Idaho.

Smokey's Job

I opened my newspaper on the very morning we began putting together the summer issue of *Woodland Catalog* and to my surprise there was an Associated Press article about the cause of wildfires.

The article reported on a study published in the *Proceedings of the National Academy of Sciences.* The bottom line was that an analysis of fire data in the U.S. over a 20-year period revealed that five out of six wildfires were caused by people. It also found that "wildfire season" has at least tripled. (Actually, it never ends in some parts of our country.) Trash burning and misuse of equipment accounted for 40% of the causes, and 1 of every 5 wildfires were due to Fourth of July fireworks. One campfire last year was cited as the cause of the nation's most expensive wildfire – $200 million in suppression costs, to say nothing of property destruction and natural resource damage.

Of course, it is impossible to know how many wildfires that did NOT occur were thanks to Smokey's messages. Also, Smokey is unlikely to have much effect on arsonists. But Smokey can – and does – help in two important ways: (1) educating children, and (2) serving as a constant reminder to adults to be careful.

We're here to help you help with both. As always, you can depend on our fast, friendly and fully guaranteed service. I look forward to hearing from you and hope that you have a safe and enjoyable summer.
